ss0: invalidate sessions when needed

06/12/2021 09:38 PM - q3k

Status:	New	
Priority:	Normal	
Assignee:		
Category:	hscloud	
Description		
We'd like to invalidate all oauth sessions whenever a user:		
<ul style="list-style-type: none">- changes their password- visits a magic 'log out everywhere' endpoint- becomes for some reason inactive (probably depends on #35, in which we define more closely what inactiveness means)
